

CPCM Series

KiLi are introducing the LED Canopy Panel Light to its already extensive range of high-performance range. This Light is design around the 300x300mm,600x600mm Grid ceiling system. Using our high output LED chip set combined with the Meanwell driver, this Canopy Panel range has endless applications to work with. The power starts at 50/100/150 watt and can go up to 150-watt with three different beam angle options. The Canopy Panel is also IP65 making it the perfect choice for just about any project.

FEATURES

- IP65 protection grade, suitable for indoor and outdoor.
- The best performance requires the best lighting system for the task.
- It's a ceiling light conceived to meet the needs of production environments. The innovative engineering guarantees impeccable quality of light and naturally, has high efficiency to reduce energy consumption.
- Unique design for industrial application to ensure a quick return of investment.
- High efficiency up to 120lm/W, energy saving and accelerates payback of production plants.
- The structure and minimal thickness of the Panelbay line reflects contemporary tastes and fits perfectly with the architecture of modern work environments.
- The direct light emission - thanks to dedicated optics - focuses illumination where it is needed: on a workstation or a production line.
- High quality Acrylic lens (PMMA) design to maintain the richness of the lighting. Frosted lens enhances visual comfort by gentle diffusion of the lighting.

CPCM Series

APPLICATIONS

- Metro station, train station, bus station, Airport, Showroom, etc.
- Exhibition lighting or home illumination
- Industrial Lighting: Airport, factory and warehouse, free workshop
- Commercial Lighting: Lighting projects, kitchen, banks, hotels, schools, offices, hospital,
- Public Lighting: Bookstores, gymnasium, supermarket and public places etc.

Multi-purpose Halls

Supermarket

Hospital

Offices

CONSTRUCTION

- IP65 protection and luminous flux range from 10,000 to 20,000 lumens.
- Frame and heatsink: Powder coated white frame
- Mounting: Ceiling mounting with screws and anchors or steel cable suspension
- Optic: "Optical grade" polycarbonate (only on 60° version)
- Lens: Lens Flat PMMA thickness 3 mm with double UV treatment. Frosted lens enhances visual comfort by gentle diffusion of the lighting.
- 30degree/60degree/90degree for optional.
- Long Lifespan 50000 hours, 5 Years Warranty.

TECHNICAL SPECIFICATION

- Input Voltage : AC85-264V or AC277V, 50/60 Hz
- Driver Type : UL Approved Flicker-free
- Luminous Efficacy : up to 120lm/w
- Colour Rendering Index : > 80Ra
- LED Type : LM80 SMD2835
- Operating : Temperature:-40°C up to 60°C (-22°F up to 122°F)
- Color Temperature : 3000K/4000K/5000K/6000K
- Material : Powder coated white frame&"Optical grade" polycarbonate
- Ingress Protection : IP65
- Impact Rating : IK08
- Rated Life : 50,000 hours
- Warranty : 5 years
